

PUBLIC NOTICE

REMAIN VIGILANT

As Village of Kings Point officials do everything possible to protect the health and safety of residents, citizens are urged to continue to help stop the spread of COVID-19 by staying home, practicing social distancing, washing their hands often and wearing masks when it's necessary to leave the house.

FACE MASKS REQUIRED

New York State now requires any individual who is over age two and able to medically tolerate a face-covering to cover their nose and mouth with a mask or cloth face-covering when in public and unable to maintain, or when not maintaining, a social distance. A mask is not a substitute for social distancing but an added measure to help avoid spreading COVID-19 to others in case you are infected and not showing symptoms.

STOP SIGNS TO SLOW TRAFFIC

With people staying home and the weather getting warmer, pedestrian activity along the roadways in Kings Point has increased dramatically. To slow the flow of traffic, the village will soon install temporary stop signs along East Shore Road and Kings Point Road. Drivers are reminded to always come to a complete stop, as traffic rules will be fully enforced by the Kings Point Police for the protection of our citizens. When the COVID-19 pandemic subsides, a final determination will be made by the village as to removal of the signs.

Cars should slow down when pedestrians are nearby and people are reminded to walk single file, facing traffic and stay to the far side of the road. Reflective vests are provided by the village, free of charge, as added safety for those traveling by foot during the evening or early morning hours. Residents can stop by Village Hall, with proof of residency, to pick up two vests per household.

WHEN TO TAKE ACTION

- If you believe you have been infected, contact your health professional. Isolate yourself from others in the home to minimize potential transmission of the virus. Notify the Village of Kings Point, as the information may be helpful in protecting others.
- If you believe you have been exposed to COVID-19 and are not symptomatic, contact your health professional. Avoid going out in public for 14 days.

FIRST RESPONDERS ON CALL

Members of the Village of Kings Point Police Department are standing by around-the-clock to answer calls for help from the community, including those who may be experiencing a health emergency. Officers are well-trained in hygiene protocols and first-aid response procedures. Patrol cars are equipped with oxygen, automatic defibrillators and other supplies for administering first aid.

Volunteer members of the Vigilant Fire Company, which provides Kings Point residents with emergency ambulance services, are on call as well, to provide medical assistance when needed.

CDC REMINDERS

- Wash your hands often with soap & water or use hand sanitizer.
 - Avoid touching your eyes, nose & mouth.
 - Disinfect frequently-touched surfaces daily.
 - Maintain a 6-foot distance from others.
- Cover your nose & mouth with a cloth face mask when you must go out in public.
